

Jess Willard Says "Take Nuxated Iron"

If you want plenty of 'stay there' Strength and Endurance and Health and Muscles like mine"

A hitherto untold secret of his Grand victory over Jack Johnson

Ordinary nuxated iron will often increase the strength and endurance of delicate, nervous folks 200 per cent in two weeks time.

I consider that plenty of iron in my blood is the secret of my great strength, power and endurance.

Jess Willard

Special Note—Dr. E. Sauer, a well known physician of this city, has been especially employed to make a thorough investigation into the real secret of the great strength, power and endurance of Jess Willard, and the marvelous value of nuxated iron as a strength builder.

NEW YORK—Upon being interviewed at his apartment in the Colubal Hotel, Mr. Willard said: "Yes, I have a chemist with me to study the value of different foods and products tested to their power to produce great strength and endurance, both of which are so necessary in the prize ring. On his recommendation I have taken iron and I have particularly advocated the free use of iron by all those who wish to obtain great physical and mental power. Without it I am sure that I should never have been able to whip Jack Johnson so completely and easily as I did, and while now training for my fight with Frank Moran, I am regularly taking nuxated iron. Continuing Dr. Sauer said, "Dr. Willard's case is only one of hundreds which I could cite from my own personal experience which proves conclusively the astonishing power of iron to restore strength and vitality even in most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old, and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man. In fact a young man, his only son, he said, was taking nuxated iron. The secret he said was taking nuxated iron. He had filled him with renewed life. At 20 he was had health; at 40 careworn and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which weakens and disorients is nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it you don't know how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were all but dead, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days thus simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or ferrous iron simply to save a few cents. You must take iron in a form that is easily absorbed and assimilated like nuxated iron. If you don't, it is to do you any good, otherwise it may prove worse than useless.

Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone to his agonizing death simply for the lack of iron. E. Sauer, M. D.

NOTE—Nuxated Iron, recommended above by Dr. Sauer is not of patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by the most prominent physicians everywhere. Unlike the cheap, hazardous iron products, it is easily assimilated, does not irritate the stomach, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100,000 to any charitable institution if they cannot take any man or woman under 50 who lacks iron and increase their strength 200 per cent or over, or, if they cannot, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days time. It is dispensed in this city by Arnold Drug Co., Grant-Martin Drug Co., Geo. W. Stonefield and all other druggists. Advertisers' note.

WAITE HAD AN ACCOMPLICE IN PECK MURDER?

Velvet-Eyed Mrs. Horton Being Watched by Officials.

Evidence Strong That Others Were in Big Murder Plot.

AS ROMEO AND JULIET

"Studio" Woman and Dentist Played at Dramatic School.

Waite Says He's Ready to Pay Penalty With Life.

New York, March 27.—At least one other person is suspected of having been implicated with Dr. Arthur Warren Waite in the "million dollar poison plot" that resulted in the deaths of John E. Peck, the dentist's aged and wealthy father-in-law, and the latter's wife.

This was the startling fact that the district attorney's investigation took today. Very guardedly—and at the moment when members of the Waite and Peck families were seeking to have the defendant "come through" with a complete confession—officials of the district attorney's office and detectives hinted that others were cognizant of Waite's scheme to murder for money.

The sinister revelation came after Mrs. Dorothy Palmenberg, living in West Seventy-second street, had been closeted with Assistant District Attorneys Brothman and Dooling for four hours. Mrs. Palmenberg is "next friend" to Margaret Weaver Horton, she of the velvet eyes and the dove-like disposition, who shared a "studio" room with Waite at the Hotel Plaza under the name of Mrs. A. W. Walters. The examination of the two women has practically absorbed the entire energy of the district attorney's office for two days.

Evidence Strong.

"Is any one else implicated with Waite?" Dooling was asked when Mrs. Palmenberg had flounced with a show of anger out of his office.

"The evidence we have is sufficient in the case of Waite alone," was the measured and significant reply of the assistant prosecutor.

"You mean that certain phases of your investigation now point to one or more others being implicated with Waite?"

"Yes," replied Mr. Dooling. "Who else knew of the murder scheme in which Waite himself?"

"This is so big a point," answered Mr. Dooling after a pause, "that I don't feel that I should say anything about it at this time."

Desires Electric Chair.

Waite Sunday moaned out a desire to be taken to the electric chair at once. He expressed a desire to waive all legal formalities.

"Why don't they take me out and have it over?" he queried at one period of the day.

Waite begged that Mrs. Horton be sent to him. He made the request of Raymond Schindler, private detective through whom he sought to make an offer of \$1,000 to Dora Hillier, the negro maid to perjure herself.

Mrs. Horton Watched.

"Is Mrs. Horton under guard?" Mr. Dooling was asked after his interview with Mrs. Palmenberg.

"She can't leave," was the reply. "Is she watched?"

"I won't say," responded Dooling. "She is under a continuing subpoena calling for her appearance during a certain period of time."

In his guarded statement Mr. Dooling gave hints indicating that Waite during the period when he was planning the murder of the Pecks for their money was himself the victim of a certain coteries.

Waite spent money on a lavish scale. He always seemed to be well supplied with cash. Mrs. Horton, Dooling revealed today, says that Waite offered to buy her expensive jewelry at Fifth avenue shops.

At School Was "Miss Horton."

"She has not yet admitted that Waite bought anything for her," said Dooling. "But we are eliciting new and more important information from her at every interview."

"She now admits that Waite was paying for her tuition at a dramatic school. She was registered here as 'Miss Horton.' I don't know how Mrs. Horton was registered. Mrs. Horton together with Waite was Romeo and Juliet."

She eloquently compared his rendition of the role to that of E. H. Sothern.

"I am frankly puzzled by Mr. and Mrs. Horton. They give the impression of being persons of means. Horton says he is an engineer and mentions a great many prominent persons as friends and acquaintances."

Both Have Money.

"Not yet," replied Dooling. "She admits that she has known him since Christmas week, 1915. Previously she asserted she met him first at the Berlitz School of Languages. Now the question that interests us is did Mrs. Horton have a predecessor or did she know Waite before his marriage?"

"Not yet," replied Dooling. "She admits that she has known him since Christmas week, 1915. Previously she asserted she met him first at the Berlitz School of Languages. Now the question that interests us is did Mrs. Horton have a predecessor or did she know Waite before his marriage?"

murder is expected today or tomorrow.

One of the most important links of evidence Mancuso is bringing back with him is said to be proof that Waite communicated with Mrs. Horton while she was in Grand Rapids seeking to rush John E. Peck's body to a crematory.

Mrs. Horton, it was learned has admitted the communication to Assistant Attorney General Dooling. She had offered no explanation of Waite's frenzied telephone message to her a few minutes after the dentist stepped off the train from Grand Rapids.

"Am being shadowed. Pack up your things quick. Skip!"

Witnesses From Grand Rapids.

Attorney Mancuso, Dr. Harry Schurz, the Peck family physician and Mr. and Mrs. Percy Peck, son and daughter-in-law of the victim of the alleged murder arrived today from Grand Rapids and were expected to go before the grand jury. Mr. Mancuso brought with him a large

number of exhibits and 800 pages of stenographic notes, detailing among other things, the cremation of Mrs. Peck, wife of the victim, who preceded him six weeks in death.

Aviator Has Broken Nose.

San Antonio, March 27.—Lieutenant Thomas S. Bowen of the first aero squadron, who was injured when his machine fell near Casas Grandes, reached San Antonio today and is under treatment at the base hospital. His most serious injury was a broken nose.

Pioneer Grape Fruit Shipper Succumbs to Long Illness.

New York, March 27.—The man who put grape fruit on New York's breakfast menu, Eugene J. Gregory, is dead at the home of his son, Julius Gregory, 900 Summit avenue, the Bronx.

Mr. Gregory was a well known Republican in Pacific coast politics. He was born sixty years ago in San Francisco. He was mayor of Sacramento in 1887. He shipped the first car of California fruit to the east. He was president of the state board of trade of California, president of the California Midwinter exposition, head of the Native Sons of the Golden West and a past master of the Masonic order. Mr. Gregory had been an invalid for five years. His son and a widow survive him.
